## PERSONAL PROFILE

---

### Biography

Dr. Rischan Mafrur is a lecturer at Western Sydney University Indonesia (WSUI), Surabaya, where he teaches Data Science and Big Data Applications. He earned his PhD in Data Science from The University of Queensland, Australia. He is also a data professional with over 10 years of experience, specialising in Python, SQL, and data warehousing. His research and applied work sit at the intersection of financial data engineering, AI systems, and digital asset analytics, supported by active collaborations across Australia and Southeast Asia.

Before joining WSUI, he worked as a researcher at Macquarie University, Australia, collaborating with financial data specialists on Australian Securities Exchange (ASX) and digital asset data pipelines. His work included extracting raw data from ASX, processing corporate actions and pricing data, and producing end-of-day datasets for academic and research use. He also contributed to the development of a crypto data warehouse that ingests DeFi data and transforms it into analysis-ready tables for academic research.

In addition, he has delivered sessions for an advanced data analytics upskilling program hosted by UNSW Sydney (Mentem), supporting professionals from Commonwealth Bank (CBA) and the NSW Government across diverse technical and non-technical backgrounds. He also works as a data scientist on a casual project basis, undertaking multiple client-requested projects across data analysis, automation, and applied analytics. Across these roles, much of his work has been carried out remotely while living a nomadic lifestyle with his family.

## EDUCATION

---

### Doctoral

**The University of Queensland**, Brisbane, Australia

Doctor of Philosophy in Data Science

PhD thesis: Recommending Data Visualizations

January 2018 to November 2023

### Master

**Chonnam National University**, Gwangju, South Korea

Master of Engineering in Internet of Things

September 2013 to August 2015

### Bachelor

**Sunan Kalijaga State Islamic University**, Yogyakarta, Indonesia

Bachelor of Computer in Informatic Engineering

August 2009 to January 2013

## ACADEMIC EXPERIENCES

---

### Lecturer

Western Sydney University Indonesia (WSUI), Surabaya, Indonesia (On-site)

January 2026 to present

- COMP 2025 Introduction to Data Science
- COMP 3002 Applications of Big Data
- COMP 2019 Systems Programming 1

### Instructor

UNSW (Mentem) Advanced Data Analytics Upskilling, Sydney, Australia (Remote)

January 2025 to December 2025 (Part-time)

### Teaching Assistant

The University of Queensland, Brisbane, Australia (On-site)

February 2020 to July 2023 (Part-time)

- Advanced Database Systems (INFS3200)
- Database Principles (INFS7901)
- Relational Database Systems (INFS2200)

### Teaching Assistant

Sunan Kalijaga State Islamic University, Yogyakarta, Indonesia (On-site)

September 2010 to April 2013 (Part-time)

- Algorithms and Data Structures (C) (2010)
- Operating Systems (Linux Bash Scripting) (2010, 2012)
- Visual Programming (Borland Delphi) (2011)
- Database Systems (MySQL and Oracle) (2011)

- Structured Programming (C, Procedural) (2011, 2012)
- Object-Oriented Programming (Java) (2012)
- Web Programming (PHP) (2012)
- Information Systems (2012/2013)
- Mobile Computing (Android) (2012/2013)

## PROFESSIONAL EXPERIENCES

---

### Financial Data Engineer and Researcher

Department of Applied Finance, Macquarie University, Sydney, Australia (On Site)  
December 2024 to December 2025 (Full-time)

- End-of-Day ASX Data Service: Designed automated pipelines to clean, enrich, and merge multi-source data for end-of-day reporting and time-series forecasting
- Ethereum mempool data analysis: Analysed and reported Ethereum mempool data for blockchain transaction insights.
- Centralised exchange (CEX) crypto data analysis: Analysed and reported data from centralised exchanges to assess data quality.

### Financial Data Engineer

SIRCA Ltd, Sydney, Australia (Remote)  
February 2023 to December 2024 (Full-time)

- Crypto data warehouse: Built a crypto data warehouse and ingested DeFi data for research data collection.
- Working on product definition project, which is instrumental in defining the data available within the data warehouse collections hosted on both AWS and our on-premises rack servers. This website can be viewed here: [cryptodatawarehouse.org](https://cryptodatawarehouse.org).

### Data Consultant

Ministry of Education and Culture (MoEC), Indonesia (Remote)  
July 2021 to July 2022 (Part-time)

- belajar.id: The Ministry of Education and Culture (MoEC) Republic Indonesia launched a national account program in 2019, in which the ministry provided a national email account for 27 million students as well as 3.4 million teachers. As a data consultant, I have to achieve the expected output: report of the findings, include (but not limited to) the research methodology, data exploration and observations, and recommendations on how to increase the activation and adoption rate

### Founder, SME Analytics Solutions

Visua.id (Acquired), Jakarta, Indonesia  
2020 to 2021

- Business intelligence delivery: Built plug-and-play dashboards across Shopee, Tokopedia, and Facebook Ads.
- Template design: Enabled scalable self-service reporting through repeatable frameworks.

## Backend and Database Engineer

Kartoza Pty Ltd, Western Cape, South Africa (Remote)

September 2015 to February 2017 (Full-time)

- **Projecta:** Open-source visual changelogs for software releases and software project management.
- **AgriTechnovation:** Farm mapping and management platform for agricultural land in South Africa.
- **SANSA Catalogue:** Online Earth observation catalogue for the South African National Space Agency.

## PROGRAMMING / TECH SKILLS

---

Programming Languages: Python (expert in Pandas), SQL, R

Databases: PostgreSQL, MySQL, Oracle

Operating Systems: Unix/Linux, macOS, Windows

Cloud: AWS, GCP

Tools: Jupyter Notebook, Docker, Git

Blockchain: Ethereum, Solana

Visualisation: Matplotlib, Seaborn, Plotly

ML Tools: scikit-learn, SciPy
